

■ **GO**REND HBS

1 COAT 2 PASS MONOCOUCHE RENDER

■ GOREND HBS Monocouche

GoRend HBS is a factory batched, through coloured monocouche render, that we have specifically designed and formulated for new build properties. GoRend HBS is quick and easy to apply in one coat over new blockwork. GoRend HBS has an attractive and durable 2mm scraped aggregate finish.

Features

- 13 colours - next working day delivery for stock colours
- Fast application
- 5-36 hours scrape time depending on weather conditions
- Suitable for machine and hand application
- Through coloured to provide a low maintenance decorative finish
- Can be directly applied to standard 7kN concrete block, which is cost effective and speeds up application
- High tensile and compressive strength gives long term durability
- Vapour permeable - allows walls to breathe, providing a healthy living environment

Designed for new build

One coat application with a low maintenance decorative finish

■ Application

Mix GoRend HBS with clean water and apply to new blockwork in 2 passes, 'wet on wet'. Embed GoMesh into the first pass and around all apertures and stress points (fully meshed on lightweight block).

Then rule off the GoRend HBS, flatten and leave to cure. Once the GoRend HBS has had sufficient time to dry (5-36 hours depending on weather conditions) scrape back the GoRend HBS with a nail float, brush off any loose scrapings and leave to fully cure.

1. First pass

2. GoMesh

3. Second pass

4. Scrape back

NEW! recyclable packaging

■ Colour Palette

White

Ivory

Sunbeam

African Grey

Colours shown are for illustration only and the best match printing will allow.

Please contact us for a free finished product sample. Extended and premium colours are also available.

■ GOMESH

GoMesh has a pressed weave and alkaline resistant coating to prevent render cracking. Use with GoRend HBS for incredible strength and durability from the glass fibre strands.

■ GOREND Dash

GoRend HBS is also available as a Dash Receiver formulation, a specially developed through-coloured and durable base. GoRend Dash Receiver comes in the 13 colours above, with dash aggregate available in a wide range of colours and sizes. Please ask for samples.

■ PROBEAD coordinating render beads

34 profiles in 18 standard colours that coordinate with GoRend and ProRend renders and systems.

SAS

At SAS we have more than 35 years of practical experience in the rendering and facades industry. Our team have practical experience of applying products, we work with specifiers and provide technical problem-solving on site. SAS supply the highest quality external products for your build projects, and have an experienced technical team to get the results you want.

We are constantly innovating to provide the best solutions for rendering and plastering. Our premium quality products offer longevity to the proprietor as well as technically sound and fast applications to the contractor.
